

## Testimonials

My once swollen ankles are now normal size after six treatments. They tend to retain fluid when I am under stress but one or two treatments brings them back to normal size.

*Ellen Zimmer, Spring Valley, Wisconsin*

The liver spots that used to be all over the back of my hands and arms are almost completely gone.

*Louise Webb, Durango, Colorado*

I had severe swelling over both knees. One session with the IonCleanse decreased the swelling by 50%, and eight sessions later, it was gone.

*Dr. Miriam Shultz, Arab, Alabama*

My 85-year-old mother could not work in the garden because of severe pain and stiffness. She can now work a few hours every day and fights me for the IonCleanse.

*Gordon Pierce, Littleton, Colorado*

I lost 12 pounds in two months with the IonCleanse without dieting.

*Michelle Ediss, Douglas, Wyoming*

### Assisting detoxification

In today's toxic environment, tissue acid wastes, chemical and heavy metal residues build up in the body faster than ever before, resulting in a greater incidence of allergies, mental and physical incapacitation. Today, we are hearing more about herbal and homeopathic detox programs by alternative health practitioners as a way of reducing symptomology and maintaining health.

### See for yourself...

The top photo shows the baseline, where the array alone was run for 30 minutes. The bottom photo shows the water after a 30-minute session in the same program setting:

# Beauty: more than just skin-deep ...

*Introduction to ionization technology for the health and beauty industry*

**Recall the way your body felt the last time you stood next to a waterfall or walked along a beach with the waves breaking at your feet. You breathed deeper into your lungs and abdomen; your brain cleared and the pains in your joints subsided. You felt relaxed and at peace with the world.**

**These invigorating reactions were caused by the ionization of trillions of water molecules as they crashed to earth.**

A water molecule is composed of two hydrogen atoms and one oxygen atom. When the molecule loses a hydrogen atom, the remaining OH molecule takes on a negative charge. As you walk along the beach, your body absorbs millions of these negatively charged ions, which alkalize the blood and tissue. Because of poor diet and high stress, we tend to accumulate and store excessive quantities of waste products such as diacetic, lactic, pyruvic, uric, carbonic, acetic, butyric and hepatic acids.

According to Dr. Theodore Baroody, author of *Alkalize Or Die*, acid wastes attack joints, tissues, muscles, organs and glands causing minor to major dysfunction. He asserts that avoiding disease and maintaining vitality as we age requires the maintenance of an alkaline environment throughout the body – which is virtually impossible to accomplish in our high-tech, high-stress, toxic society unless we can walk on the beach everyday.

## *A Walk on the Beach*

The *IonCleanse* creates precisely the same environment as the walk along the beach, only more powerfully because your feet are in direct contact with the ions being manufactured in the water. Place your feet in the water, turn on the unit and within seconds, millions of ions enter your body and begin to neutralize these tissue acid wastes.

The particles, fat and mucous residues found in the water after bathing reflect the wastes that have left the body during the 20 to 30 minute session.

Your body will feel lighter after the first session. You will think more clearly, have more energy and enjoy a greater sense of well-being.

## *Skin and beauty applications*

Pimples, rashes, dark circles under the eyes, swollen joints, yellow, green and blotched complexions often indicate a buildup of tissue acid wastes inside the body. Several *IonCleanse* sessions along with dietary modification and detoxification have been shown to substantially reduce and even eliminate these conditions.
